

Know every load before it leaves the field

Live trailer weights on your phone, with every load recorded for the whole farm.

Trailer weighing, logged to your
farm account as you go

Built for every crop you haul

Grain

Oilseeds

Pulses

Root crops

Silage

Bulk materials

Live weight in the cab

Tonnes and kilograms on your phone as the trailer fills, with a capacity gauge to stop overloading.

Calibrate once

Record the empty trailer and one known load. Re-tare at any time in seconds.

One sensor, every trailer

The sensor fits on the tractor. Calibrate each trailer once and share it between phones by QR code.

Works without signal

Loads are saved on the phone and sync automatically when you're back in range.

Yield by field PLUS

Running tonnes and t/ha or t/ac for each field and crop, while you're still cutting.

Store stock levels PLUS

See what's in every store and section against its capacity, reset each season.

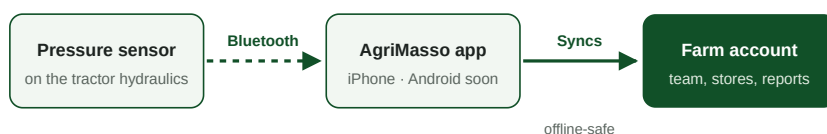

Reports ready to send PLUS

PDF and CSV exports by field, crop and date for your agronomist, buyer or accounts.

Weigh, record and share every load

AgriMasso pairs one pressure sensor on the tractor's hydraulics with an app on your phone. You get a live load weight as you fill, and every load is logged with its trailer, time and driver. With AgriMasso Plus, the whole team works from one farm account, adding crop, field, destination, moisture and quality to each load.

How it works

SPECIFICATIONS

System accuracy (in use)	[±X% vs weighbridge, testing underway]
Sensor accuracy	±0.25% of full scale at 25 °C
Sensor pressure range	0 – 200 bar, sealed gauge
Sensor output	I2C digital
Sensor connection	G1/4A thread
Sensor cable	2 m, M12 5-pin, right-angle at the sensor
Sensor protection	IP69K, stainless steel, fully hermetic
Power	12 V from the tractor
Sensor operating temperature	-40 to +100 °C
Connection	Bluetooth Low Energy, auto-reconnects
App	iOS · Android coming soon
Units	Tonnes, kg · hectares or acres
Fitting	One per tractor, teed into rear hydraulic outlet
Trailer compatibility	Any trailer with a linear pressure response to load

AgriMasso

Free app

- Live weight and capacity gauge
- Load history with daily totals
- Calibration and QR trailer sharing

AgriMasso Plus

Farm subscription

- Team farm account via invite code
- Crop, field, store, moisture and quality per load
- Yields, store stock, reports, load alerts
